### PAPER SUBMISSION

Advances in Control Education brings together control engineering academics from all disciplines. It combines the research areas of education with the subject of control engineering.

The conference showcases state-of-the art online tools for education, benchmarking problems and investigative studies on teaching control engineering.

The symposia will move to higher number of interactive presentations and panel sessions, and software presentations with respect to: - Industrial demos, - academic – industry collaborative spaces, tools and demonstrations, - open educational resources.

**Extended deadline for Paper Submission: February 22, 2025**

### Copyright Conditions

All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere. The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the Elsevier webpage ([Elsevier](https://www.elsevier.com/locate/elsevier)), and the authors will abide by the IFAC publication ethics guidelines ([IFAC](https://www.ifac-control.org/publications/copyright-conditions)).

Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFAC-PapersOnLine series hosted on ScienceDirect ([ScienceDirect](https://www.sciencedirect.com)). To this end, the author(s) must grant exclusive publishing rights to IFAC under a Creative Commons license when they submit the final version of the paper. The copyright belongs to the authors, who have the right to share the paper in the same terms allowed by the end user license, and retain all patent, trademark and other intellectual property rights (including research data).
